

Workshop on fundamentals in pediatric dialysis

21 - 22 October 2021

2021	Time	Title	Speaker	Meeting link	
October 21st	14.00-14.20	Principles of chronic PD (machines, dialysates and catheters)	CP Schmitt	Link 1	
	14.20-14.40	Daily management of PD: introduction and maintenance, cycles (volumes and number)	A Zaloszcyc		
	14.40-15.00	Peritonitis in PD and other complications	S Bakkaloglu		
	15.00-15.15	Combined discussion	CPS, AZ, SB		
	BREAK				
	15.30-15.50	Principles of chronic HD (HD vs HDF, basics of biophysics and water management)	F Paglialonga	Link 2	
	15.50-16.10	Daily management in HD: how to set up the session (first session, and subsequent adaptations)	E Snauwaert		
	16.10-16.30	Catheters and fistulas for chronic HD	R Shroff		
	16.30-16.45	Combined discussion	FP, RS, ES		
16.45-17.30	Challenging clinical cases for panel discussion				
October 22nd	14.00-14.20	Chronic PD and HD: what are the relevant KPI for physicians and patients	J Bacchetta	Link 3	
	14.20-14.40	Initiation of dialysis: when? How?	E Preka		
	14.40-15.00	Dialysis in AKI	I Guzzo		
	15.00-15.15	Combined discussion	JB, EP, IG		
	BREAK				
	15.30-15.50	What's new in pediatric PD, a review of the recent literature	CP Schmitt	Link 4	
	15.50-16.10	Dialysis in pediatrics: what should we take into account before buying machines?	B Ranchin		
	16.10-16.30	What's new in pediatric HD, a review of the recent literature	R Shroff		
	16.30-16.45	Combined discussion	CPS, RS, BR		
	16.45-17.30	Challenging clinical cases for panel discussion
