Project Name:	Release Date:	Release Version:
CPMS Request 18	15 December 2021	Version: Rel 2111.01 Created: 15/12/2021

## New Features:

- Request 18: Expert Groups
- Internal Project: Video Conferencing

## Updated Features:

- Application wide User Interface upgrade from Bootstrap 3 to Bootstrap 4
- Zendesk #20969: Request 14 eUROGEN dataset update, re-implementation of Medical Documents Section
- Zendesk #22724: Automatic acceptance of ERN Recurring Meetings.
- Zendesk #17785: ERN Panel Manager Permissions
- Zendesk #22876: Update to Welcome Email with Guest Messaging
- Addition of Privacy Policy in application footer
- Removal of unnecessary Cookies
- Updated FAQ
- Updated User Guide

## Fixed Issues:

- Correct Copyright Year
- Meeting duration could be set to a negative time value
- All displayed time values are relevant to the users designated location, not the users computer time

## Known Issues:

The following are known issues to be addressed in follow-up releases:

- The FTP server for file upload is currently not available
- Depending on when a meeting is created, UTC offset for meetings are sometimes out of sync
- Standardised communication required for necessary Cookies
- Notifications not being sent out when Requesting Contributions
